

# Certificate and Diploma in Education Support

This fully **ONLINE** learning program has been designed for those who wish to have specialized post-secondary education and training to volunteer or pursue a career as an Educational Support/Assistant or who are already working in the field and want to upgrade their qualifications.

Through a series of online course modules, participants develop key aptitudes, knowledge, and skills needed to support children and youth with special needs during their educational experience and work closely with other educators and administration.
