

International Languages Instructor (ILI) Certificate & Diploma Programs

*Online Professional Development Programs
for International Languages Instructors*

The International Languages Instructor (ILI) Certificate and Diploma is a specialized professional development program designed for educators who teach heritage and international languages within school boards. These programs support multiculturalism by enabling children and youth to maintain and develop their home or ancestral languages.

Unlike ESL programs, which focus on English language acquisition, International Language programs focus on teaching languages such as Spanish, Mandarin, Arabic, Ukrainian, Italian, Portuguese, Punjabi, and others within K-12 settings.
